

The Impact of Your Decisions

Being transparent about Panera's pay for performance philosophy is a great way to win together and celebrate top performance in the cafe.

And remember:

- Making informed decisions when you assign someone a starting wage ...
- and how you handle wage increase decisions during QHC ...

will make a big impact on how your team feels about being paid fairly and equitably.

Take what you've learned here and develop a solid process for QHC so that you'll get it right the first time, every time.
